WELCOME

Company Profile

Established in 1988 we have many years experience in the packaging industry and plenty of practice in finding quick and cost-effective solutions.

In 1998 we formed Hanem Boxes – a specialist short-run manufacturer of corrugated cartons in all FEFCO styles – with a design and sampling service.

How to Order

By Tel: 01531 632233 **By Fax:** 01531 634026 **By E-mail:** sales@morepackpkg.co.uk

Online: www.brightsidepackaging.co.uk or <http://stores.shop.ebay.co.uk/Morepack-Packaging-Ltd>

Delivery

Free delivery on all orders over £50 in our standard delivery areas (50 mile radius from our premises)

Our Commitment

Our registration to ISO 9001:2000 demonstrates our commitment to a good quality management system which enables us to develop and continue an excellent service to you the customer.

Our Mission

“To be the leading independent UK supplier of industrial packaging materials, supplying a complete stock range providing innovative solutions designed and manufactured to individual requirements”

A note from the Director

“Morepack Packaging have long been established as a leading family run and independent supplier and manufacturer of packaging products. We care about the environment and the customers we serve. I hope you will give us the opportunity to demonstrate our commitment.”

BESPOKE SERVICES

Custom Made Boxes

We can manufacture a range of custom made boxes to order to any size, quantity, style or finish.

For plain or printed bespoke cartons simply choose:

1. The design of the box from a range of popular FEFCO styles (www.fefco.org)

From as simple as an 0201 to a more complicated crash lock base 0215
For styles which require die-cutting, cutting formes will be charged at cost.

2. The material specification:

We stock corrugated Brown and Oyster board in Single and Double Wall but we are able to supply a range of different boards and grades. Please visit our help and advice page or contact our sales team for guidance.

3. The quantity:

We are able to manufacture any quantity you require. However, the more you order the higher the discounts we can offer.

4. The print:

We can supply printed cartons from one to four colours in a variety of different finishes for quantities over 500. Please contact our sales team for more guidance. Print origination charged at cost.

0201

0203

0215

Double Wall Oyster

Single Wall Brown

Composite Packs

We can also provide composite packs which provide extra protection:

Dividers and Fittings:

An environmentally friendly alternative to polystyrene and foam, ideally suited for fragile items which need separating during transit. Divider cells provide additional strength and structure for stacking. Supplied flat packed, easy to assemble and takes up less space.

Polystyrene:

Polystyrene is light and economical to use, provides excellent insulation, good transit protection and can be profiled to any shape with low tooling costs. A fast and easy method for packing with good presentation qualities.

Foam:

Foam is particularly suited to fragile items which require greater protection during transit. We can supply a wide range of different foam types and grades to meet customer requirements for a variety of applications. Highly recoverable and reusable with excellent presentation qualities.

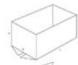

Please contact us with all the details and we can provide you with a quotation.

HELP AND ADVICE

FEFCO Box Styles

FEFCO, the European Federation of Corrugated Board Manufacturers, is regarded as the standard international guide to box styles. The most popular designs are detailed below to assist you when requesting a custom box quotation

- 
0201: The most common style where the flaps meet in the middle at the top and the bottom of the box
- 
0200: This is an open top box which requires sealing at the bottom only.
- 
0203: The same as an 0201 but the flaps fully overlap to add strength instead of meeting in the middle.
- 
0409: Unjoined carton, normally referred to as a 5 panel wrap.
- 
0411: Similar to the 0409 but joined in the middle of the main panel.
- 
0300: This style is used to produce box & lid designs and can be produced with a shallow or full depth lid.

How to measure a box

All dimensions are expressed as internal dimensions in mm to allow for optimum accuracy, as follows:
Length (L) x Width (W) x Height (H)

figure 1

Corrugated board quality

Single layer of corrugated board (Single Wall):

*Economical solution usually for lightweight products

Double layer of corrugated board (Double Wall):

*Provides extra strength, protection and durability for heavier and fragile products. Ideal when stacking is required.

Oyster Single Wall

Oyster Double Wall

Brown Single Wall

Brown Double Wall

TAPES

Premium and economy quality packing tapes which instantly adheres to cardboard and plastic surfaces

Vinyl

- Premium quality solvent adhesion tape suitable for long-term sealing
- Thickness of 34 micron
- Works in environments susceptible to temperature change
- Low noise release

Ref	Description	Size
TVT3	BROWN	48mmx66m
TVC3	CLEAR	48mmx66m

Low Noise

- Hot Melt Adhesion
- Thickness of 25 micron
- Ideal for silent dispensing

Ref	Description	Size
TPPT22	BROWN	48mmx66m
TP8	'FRAGILE'	48mmx66m

Polypropylene

- Good quality economy hot melt adhesion tape suitable for low temperature conditions
- Thickness of 25 micron

Ref	Description	Size
TPPT3	BROWN	48mmx66m
TPPT4	BROWN	75mmx66m
TPPC1	CLEAR	12mmx66m
TPPC2	CLEAR	25mmx66m
TPPC3	CLEAR	50mmx66m
TPPC23	CLEAR	75mmx66m

Custom Printed Tape

- Increase your advertising exposure with personalised logo or message tape
- Premium quality solvent printed tape
- Cost-effective advertising method

Ref	Description	Size
N/A	1 COLOUR	48mmx66m
N/A	2 COLOUR	48mmx66m
N/A	3 COLOUR	48mmx66m

Tape dimensions are expressed as Roll Width (mm) x Roll Length (m)

All tapes suitable for use with our range of tape dispensers

TAPES

Filament

- A specialist tape with reinforced glass fibres
- Lines of filament across the length and the width
- Tear and burst resistant
- Suitable to reinforce cartons and for strapping and banding heavy goods
- Long lasting grip

Ref	Description	Size
TO1	CROSS WEAVE	25mmx50m
TO2	CROSS WEAVE	50mmx50m

Masking

- A specialist general purpose tape
- Multiple uses include: marking and identifying, temporary surface protection, bundling and sealing
- Easy to tear by hand and remove after use

Ref	Description	Size
TM1	GEN PURPOSE	24mmx50m
TM2	GEN PURPOSE	48mmx50m

Gummed Paper

- Specialist tape which uses water activated adhesion
- Bonds with the carton to ensure pack integrity and an extra strong seal
- Provides a tamper evident seal
- Suitable in temperature fluctuating environments
- 100% recyclable

Ref	Description	Size
TGP2	BROWN	50mmx200m

Tape dimensions are expressed as Roll Width (mm) x Roll Length (m)

LOOSEFILL

Eco-flo is a white, odourless chip made from starch and is 100% biodegradable and fully compostable

- A cost-effective method of void fill
- High level shock and impact protection
- Easy and safe disposal for customers
- Helps achieve packaging waste and recycling targets
- Has a wide range of applications from fine china to heavy mechanical components

Ref	Description	Size
L2A	BIODEGRADABLE	5cuft
L2B	BIODEGRADABLE	10cuft
L2	BIODEGRADABLE	15cuft

BUBBLEWRAP & FOAM

Bubblewrap

Sancell Air filled bubbles which provide cost-effective protection

- The perfect solution for protecting valuable and fragile items in storage and transit
- Light-weight and highly adaptable

Small

Ref	Description	Size
BSS1	SMALL	300mmx100m

*Eco friendly bubble film.
Fully Oxo-Biodegradable

Bubble dimensions are expressed as Roll Width (mm) x Roll Length (m)

Dispenser also available, see Packing Room Equipment section on page 19

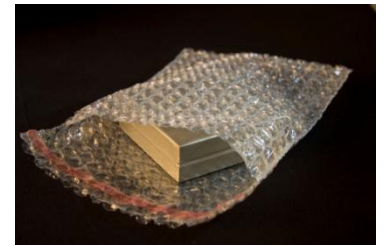

BUBBLEWRAP & FOAM

Bubblebags

Sancell Premium Self Seal Stock Bubble Pouches

- Ideal for small run packaging applications and projects where short lead times are a necessity.
- The perfect solution for protecting valuable and fragile items in storage and transit
- Light-weight and highly adaptable

Ref	Description	Size
BB2	SMALL	130x180mm
BB3	SMALL	180x230mm
BB4	SMALL	230x280mm
BB5	SMALL	280x375mm
BB6	SMALL	305x425mm

Foam

Low density polyethylene foam

- Ideal solution for sensitive and delicate surface protection
- Non abrasive and protects against scratches
- Moisture resistant
- Light-weight and flexible, easily adaptable to a variety of shapes
- CFC free and chemically inert

Ref	Description	Size
PF15	1.5mm thick	500mmx200m
PF16	1.5mm thick	1000mmx200m

Also available in other widths and thickness, please contact us for a quotation

POLYTHENE

Stretch wrap

Hand stretch film available in a range of thicknesses to hold goods securely on pallets during transit

- High puncture resistance, extremely strong
- Secures irregular shaped goods
- Sticks only to itself without residue for a clean and strong hold
- Handy wrap, mini rolls ideal for bundling small and awkward items
- Standard and handy wrap dispensers available for ease of application

Ref	Description	Size

For open top Polythene Bags or Layflat Tubing please contact us for details

PAPER

Corrugated Paper Rolls

Traditional paper packaging manufactured from single faced corrugated paper

- Light cushioning and surface protection
- Flexible material for wrapping and separating products
- Manufactured from recycled paper
- Mobile cutter and stand also available see page 19

Ref	Size
CP1	300mmx75m (12")
CP3	600mmx75m (24")
CP5	900mmx75m (36")
CP6	1200mmx75m (48")
CP7	1500mmx75m (60")

Pure Kraft Paper Rolls

A high performance wrapping paper manufactured from 100% pure natural Kraft paper

- Thickness of 90gsm
- Strong and tear resistant suitable for medium and heavy duty applications
- High quality finish enhances product presentation
- Counter roll holder also available for ease of use see page 19

Ref	Size
PKP10	750mmx230m
PKP11	900mmx230m

PAPER

White Newsprint Off Cut Sheets

A general purpose wrapping paper

- Used by the removal and packing industry as a general inner wrapping paper
- Sold in reams of approx 500 sheets

Ref	Size
NPO1	508x762mm (20"x30")

Tissue Paper

White and acid free ideal for wrapping delicate objects

- Ideal for protecting goods prone to tarnishing such as jewellery and silverware
- Provides chemically inert primary wrapping
- Sold in reams of approx 500 sheets

Ref	Size
TISSP2	450mmx700m

Also available in different colours please contact us for a quotation

POSTAL PRODUCTS

White Jiffy Aircraft Bags

High quality postal bags, provides excellent protection for items sent through the post

- Lightweight economical mailer
- Super light bubble lining with strong self seal closure
- Excellent tear and puncture resistance
- Ideal for use in large volume mailings

PACKING ROOM EQUIPMENT

Packing Station – System 1

System 1 includes:

- Table – 1600mm x 800mm x 800mm
- 2 shelves & shelf support section
- 4 box dividers 250mm x 300mm
- 3 box dividers 400mm x 300mm
- Perforated back panels for fixing additional accessories
- Under table mandril for 1200mm bubble/foam/corrugated
- Bench mounted cutter for 1200mm bubble/foam/corrugated

The award winning packing station system, manufactured to the very highest standards and featuring a vast selection of modular add-ons to suit just about every packing station requirement you could imagine.

Contact us for full details of the range

Polestar Mobile Cutter & Stand

The polestar mobile cutter is a quality, durable unit featuring a precision cutting unit specifically designed for use with, corrugated paper, bubble film, foam and similar materials. This fully mobile unit is available for 1200 or 1500mm wide material

Galaxy Paper Dispenser

Paper roll dispenser. Adaptable to suit your own packing room application. Create your own systems:

- Feet for bench mount applications
- Wall brackets
- Under table brackets
- Stacking brackets
- Available in 600,800 or 900mm width
